Who To Follow

#FashionIM #MCUFIM

Pamela has her own unique style. You'll never know what kind of look she will go for tomorrow. She loves to travel and that's how she gets inspired. She loves to mix and match difference pieces of clothing that you wouldn't normally put together but it somehow works.

Trends You Don't Wanna Miss

The trends this fall includes a lot of prints & patterns, and a whole lot of bright colors. We recommend having small accessories that are neon to brighten up your winter or an animal print scarf to subtly be in trend.

Faculty sharing

We asked Dr. Ma to share some insights and recommendations for college students...

Dr. Ma: " When I was a student, the social medias were not popular. We normally talk to people face to face and we enjoy that. Nowadays, people tend to communicate through social media and have less opportunity talking face to face. *Having conversations* with people seems to become a little bit not comfortable for some people. So I encourage everyone try to *practice your people skills* and it will benefit your social life."
